CORNERSTONE LAID

The President Participated in the Ceremonies at the New Gate to Yellowstone Park.

PRESENTED WITH MASONIC CHARM

He Delivered an Address in Which He Spoke of the Natural Wonders of the Park.

Advocated the Cross Breeding Between the Buffalo and the Common Cattle—Progeny Would Be Well Suited For Alaska.

Gardiner, Mont., April 25.—President Roosevelt Friday afternoon resumed his tour. Before going, however, he participated in the laying of the cornerstone of the new gate at the northern entrance to Yellowstone park. The ceremony was performed according to the masonic ritual, and was in charge of the grand officers of the state of Montana. Special trains brought hundreds of people, including a large body of masons, and as the weather was perfect the scene was a pretty one. The president delivered an address. Troops B and C, of the 3d cavalry, from Fort Yellowstone, were drawn up in front of the stand as a guard of honor. The president on behalf of the masons of Montana was presented with a masonic charm mounted on a nugget of Montana gold. The president began his address by thanking the people and the soldiers for his enjoyable two weeks' holiday and then spoke of the natural wonders of the park.

"The Yellowstone park," he said, "is something unique in this world as far as I know. Nowhere else in any civilized country is there to be found such a tract of veritable wonderland, made accessible to all visitors, where at the same time not only the scenery of the wilderness, but the wild creatures of the park are scrupulously preserved, the only change being that these same wild creatures have been so carefully protected as to show astounding tameness. The creator and preserver of such a natural playground in the midst of our people as a whole is a credit to the nation, but above all, a credit to Montana, Wyoming and Idaho.

"I have been astounded at the enormous quantities of elk and at the number of deer, antelope and mountain sheep which I have seen on their wintering grounds, and the deer and sheep in particular are as tame as range stock. Few buffalo are preserved. I wish that the government could somewhere provide for an experimental breeding station of cross-breeds between buffalo and the common cattle. If these cross-breeds could be successfully perpetuated we could have animals which would produce a robe quite as good as the old buffalo robe, with which twenty years ago every one was familiar, and animals which would be so hardy that I think they would have a distinct commercial importance. They would, for instance, be admirably suited for Alaska, which I look to see developed astoundingly within the next decade or two, not only because of its furs and fisheries, but because of its agricultural and pastoral possibilities."

At the conclusion of the ceremonies, the president's train pulled out for Livingston.

THOROUGHbred CATTLE.

The Largest Sale Ever Held in the Indian Territory—Good Prices.

Muscogee, I. T., April 25.—The largest sale of thoroughbred cattle that has ever been held in Indian territory is in progress at the farm of Campbell Russell, at Bennett. Over \$50,000 worth of cattle has been sold. Cattlemen from all over the southwest are present. All the cattle sold are thoroughbreds and are bringing fancy prices, one bull selling for \$1,000 and many have sold for over \$800.

Murder in the First Degree.

Binghamton, N. Y., April 25.—At 10:40 Friday morning the jury in the case of Elmer Crapser, a carpenter of Cincinnati, O., tried for shooting Patrick Ryan, because of difference of religious opinion, returned a verdict of guilty of murder in the first degree, punishable by death. Crapser will be sentenced to electrocution Monday, May 4.

Death of Col. Wm. Bailey.

New York, April 25.—Col. Wm. Bailey, a western railroad promoter, 67 years old, died suddenly of apoplexy. Col. Bailey in the civil war commanded the Tenth Missouri volunteers and later was an assistant paymaster in the army.

WAXING STRONGER.

Ohio Tobacco Growers Join the Kentucky Burley Association to Fight the Trusts.

[Enquirer.]

The Farmers and Tobacco Growers' Association, which was recently formed in Kentucky in opposition to the great tobacco manufacturing corporations, encouraged by the success attained in organizing a growers' combine, is now extending the sphere of action to include the entire burley leaf belt, and similar bodies are about to be formed in the river counties of Ohio, Indiana and West Virginia.

The first of these was organized at Georgetown, Brown County, O., Thursday by the Executive Board of the Kentucky Association, consisting of Messrs. W. B. Hawkins, of Lexington; John Botta, of Shelbyville; C. B. Sullivan and J. W. Newman, of Versailles; J. R. Rogers, of Paris, and E. E. Barton, of Falmouth.

The assemblage of growers and farmers was the largest that has ever been held since the movement was inaugurated. The enthusiasm manifested in the project was unbounded, and the Executive Board met with a cordial reception from the assemblage.

A permanent organization of the Brown County growers and those of the adjoining territory was effected by the election of Jacob Pabst as President, N. S. Mann Secretary and Lee Richey Executive Committee member and Manager.

Under the plan adopted by the Kentucky Association, which will be followed and carried out in the other States, the growers are bound by contract and agreement not to sell their tobacco crops or any part thereof to any one but the Growers' Association for a period of five years, and the association in turn agrees to sell the accumulated product only to the independent factories and the export trade, which absorbs a very large proportion of the entire burley leaf crop.

If the growers' association proves a successful enterprise and reaches up to the expectations of its founders and projectors, it will revolutionize present conditions and prevailing methods in the trade.

A large proportion, in fact the major part, of the entire burley crop is now and for some years has been marketed through packers and shippers who buy up the farmers' "crop lots" at a stipulated price, their profit coming from grading it according to quality. These men will be entirely eliminated, and this middlemen's profit will thus be saved to the association and the growers.

KELLEY-CHILDS NUPtIALS.

Mayslick Physician Weds One of Ashland's Pretty and Estimable Daughters.

[Ashland Independent April 22nd.]

The picturesque Presbyterian Church, at whose altar many brides and grooms of social prominence have pledged their troth, was comfortably filled this morning with guests for the marriage of Miss Mabel Jean Childs, of this city, and Dr. J. H. Kelley, of Mayslick, Mason County. The chancel was made beautiful with blooming plants, ferns and palms, the decorating being performed by some of the bride's friends.

The bridal party entered to the strains of Mendelssohn's wedding march, played by Miss Baugh, a pretty young musician of this city. As the wedding march sounded, little Robert Ogden, followed by the ushers—County Clerk E. E. Lawrence, Guy Ogden, Will Robb and J. R. Kelley, a brother of the groom—led the way down the aisle. Then followed the young couple whose fate was so soon to be united.

The bride is an exceedingly pretty young woman, and looked her best today. Her bridal gown was of white embroidered silk batiste, made en traine, and a bertha of rich lace. Her hat was a large picturesque of Gainsborough style, and she carried a huge bouquet of bride roses.

Rev. Dr. Condit, pastor of the church, performed the marriage ceremony according to the ritual of this church.

Immediately after the ceremony they drove to the home of Mr. and Mrs. Charles Boggess, where a wedding breakfast was served. The bride's table was all in white, and covers were laid for ten.

When Dr. and Mrs. Kelley returned later to take the train, the bride was gown in a dark blue tailor-made cloth. They did not escape without a shower of rice, and enough old shoes to assure them bushels of good luck and happiness.

After a brief wedding tour they will go to their future home at Mayslick, where the groom has a large practice. The Independent, with their friends, extends congratulations.

MISSING PAPERS.

It is Thought They Were of a Confidential Nature and Not of Record.

THE DOCUMENTS MAY BE RETURNED

The Tyners' Attorney Told the Postmaster General That He Could Look Over the Papers.

It is Unlikely That Any Further Serious Effort Will Be Made to Regain the Papers Taken By Mrs. Tyner.

Washington, April 25.—Attorney General Knox Friday expressed the opinion to Postmaster General Payne that unless there is something to show whether the documents taken from the safe of Assistant Attorney General Tyner are government property or private papers, no case would lie. This statement was made after Mr. Knox had gone over the papers forwarded to him by the post office department. Mr. Payne replied by stating the circumstances attending the taking of the papers and the fact that most of the papers filed in such government safes are of a confidential nature and therefore are not of record. There will be a conference Saturday between Mr. Payne and Mr. Knox. The position taken by the post office department now is that it has done all that is possible to do to establish the facts in the case; that the propriety of the act is of equal importance to the nature of what was taken, and that any further steps rest with the department of justice. It is known by the postmaster general that the safe from which all the papers were taken has contained valuable official papers at various times, and that Mr. Tyner has so stated. It is not known, however, whether any such papers were in the safe since Mr. Tyner last had access to it.

Attorney Ross Perry, of this city, counsel for the Tyners, called on the postmaster general Friday subsequent to his interview with Attorney General Knox. He told the postmaster general that the Tyners would be glad to have the postmaster general or any representative of his department look over the papers at the Tyner residence. Mr. Payne talked with Mr. Perry at some length and pointed out to him that the Tyners were given an opportunity immediately after the papers were taken to open them in the presence of the officers of the department and had refused to show them or to indicate to the government representatives even the nature of the papers. Mr. Payne was asked subsequently if he declined Mr. Perry's proposition, but said he could not discuss that phase of the question. It may be stated, as the department's attitude, however, that it will not give much weight to any papers that are returned, and that it is unlikely any further serious effort will be made to recover the papers in view of the fact that there is no way of showing whether any papers returned were the ones actually taken.

BEFORE THE GRAND JURY.

Several Indictments Returned as the Result of Lee's Testimony.

St. Louis, April 25.—Lieut. Gov. John A. Lee, who returned from Chicago Thursday night, appeared before the grand jury Friday when that body resumed the investigation of charges of boodling in the general assembly in connection with baking powder legislation. Several indictments were returned by the Cole county grand jury as the result of Mr. Lee's testimony at Jefferson City, and it is predicted that a number will be handed down here.

CONTRACT AWARDED.

The Carrying of Trans-Continental Naval Passengers.

Omaha, Neb., April 25.—Notice was received at the Union Pacific headquarters Friday from the navy department at Washington that that road had been awarded the contract for carrying all trans-continental naval passenger traffic for one year beginning on July 1. A rate of \$22.71 is made from Chicago to the coast and it is estimated that 10,000 men will be carried under the contract.

Secretary Shaw in Chicago.

Chicago, April 25.—Secretary of the Treasury Shaw arrived in Chicago Friday on his way west to meet President Roosevelt and to accompany him through Iowa. Mr. Shaw will remain in Chicago until Monday.

THE HOWARD MURDER TRIAL.

The Defense Closes and the Case is Nearing the End.

Frankfort, Ky., April 25.—The prosecution Friday had its red letter day in the trial of Jim Howard. The defense closed its direct evidence at the morning session and the remainder of the day was devoted to rebuttal testimony. The result is that Howard's alibi, as in former trials, has been badly shattered. The case will go to the jury Tuesday or Wednesday. Twenty-five or thirty witnesses were heard Thursday. N. H. Witherspoon, Youtsey's brother-in-law, did not respond when called. The failure of Mrs. Youtsey to testify probably accounted for his absence. Robert Triplett, Wesley Whittaker and Dan Vaughn were probably the most important witnesses of the day.

The investigation into the alleged rifling of United States mail either here or elsewhere resulted Friday in the arrival here of Post Office Inspector Bailey, of Philadelphia, and Kille, of Louisville, who will assist Inspector Craighead, of Cincinnati, already here. They are working on the complaint which is said to have been filed by Postmaster L. F. Sinclair, of Georgetown. There is a growing belief that there is more sensation than anything else in the matter.

Robert Triplett corroborated Hotel Keeper Pence, who swore that Howard was not in his office when the news came that Goebel was killed. Wesley Whittaker, upon whom the prosecution laid hopes of making a star witness, and by whom it was expected to prove that Howard wore a short mustache, was shown up by the defense as an ex-convict. The testimony will be concluded Saturday.

CRITICALLY ILL.

"Buck" Franklin, a Widely Known Horse Trainer, Stricken.

Louisville, Ky., April 25.—"Buck" Franklin, one of the most widely known trainers in the country, lies critically ill at his hotel in this city. He was stricken by an attack of bladder trouble four days ago, and Friday his condition was such as to alarm his friends. Friday night he rallied somewhat, but the outcome is still regarded as doubtful. Franklin is at present training for Woodruff & Buckner. The American Derby and Kentucky Derby candidate, Bad News, is in his charge.

DYNAMITE IN HIS POCKET.

Wm. Florence, of Stanford, Horribly Mangled By An Explosion.

Lexington, Ky., April 25.—William Florence, of Stanford, was horribly mangled by the explosion of a stick of dynamite which he carried in his pocket while at work for the East Tennessee Telephone Co. The young man carried about his neck an electric battery, and it is supposed that in some way the dynamite fuse came in contact with this and was charged with electricity. His left side was blown away and he died instantly.

Death of Mrs. Case.

Newport, Ky., April 25.—A pathetic scene was witnessed Friday when the aged father of Joseph Case, whose mysterious disappearance from this city one night about three years ago was the subject of much talk, implored a newspaper representative to use the columns of the paper in an effort to inform the son that his mother lay cold in death at their home, 913 Isabella street. Case's father does not think he is dead.

Gen. Grant in St. Louis.

St. Louis, April 25.—Brig. Gen. Frederick D. Grant, commanding the department of Texas, accompanied by his wife and aide-de-camp, arrived in St. Louis Friday. He will command one of the brigades of the regular troops in the World's fair dedication parade on April 30.

RUSSIA'S DEMAND.

Joint Protest to Be Sent by the United States, Great Britain and Japan.

THE SOVEREIGNTY OF MANCHURIA

Czar's Claims in Connection With It Utterly Abrogates the Principles of the Open Door.

It is the Belief in Official Circles That Russia Has No Intention of Evacuating the Disputed Territory.

Washington, April 25.—The United States government will make a vigorous protest through the proper diplomatic channels against Russia's demands upon China for the practical retention by Russia of the province of Manchuria. At the state department this step by the czar's country is regarded as a breach of faith and an attack upon the American intention of maintaining the integrity of China which was announced more than two years ago.

London, April 25.—It is learned that there is in contemplation a forcible joint protest on the part of Great Britain, the United States and Japan against the Russian demands in the matter of the sovereignty of Manchuria.

Sir Ernest Satow, British minister to China, in a dispatch to the foreign office, confirmed the synopsis of the note addressed to China by M. Planson, Russian charge d'affaires at Peking. Further official advice regarding the intentions of the Chinese government and explanations from St. Petersburg, are awaited anxiously. In the meantime the British government is not taking active measures, although Foreign Secretary Lansdowne intends to circulate pourparlers looking to joint action from Washington, London and Tokio, provided further information sustains the present abstract of the Russian demands.

A press representative is authorized by the foreign office to say that if the Chinese government correctly represents Russia's claims, these claims constitute an absolute breach of all the undertakings given in connection with Manchuria and utterly abrogate the principles of the open door, territorial division and international comity to which the British government constantly and publicly has committed itself. It is added that in these principles Great Britain has always acted with the United States, and it is presumed that similar feelings exist at Washington. Nothing, however, is definitely known, as, with the exception of the British minister to China, no British ambassador has yet reported.

It is pointed out that Russia's explanation may throw a different light on her demands, although in official circles here there is a frank expression of the belief that Russia has no intention of evacuating Manchuria, and that she hopes, after demanding the maximum, to secure a compromise.

Even the most conservative see in her demands a determination to obtain practical sovereignty of that portion of the Chinese empire. Enforcement of the demands on Russia's part, it is believed, might entail an international war—a veritable bacle of Armageddon.

The Russian demands were contained in a notification sent to Prince Ching, president of the Chinese foreign office, by M. Planson, Russian charge d'affaires at Peking. He stated that no further steps would be taken toward the evacuation of Manchuria until these demands were acceded to.

HERR KRUPP'S WORKS.

All the Various Plants Organized into a Stock Company.

Berlin, April 25.—The late Herr Krupp's various works have been organized into a stock company, with \$40,000,000 capital, under the designation of the "Friedrich Krupp Co." Former Public Works Minister Thielen is vice president of the board of directors. The manager is former Landrath Roetger. The stock which is not listed on the Bourse remains in the hands of the Krupp family.

Peacemaker Was Shot.

Mt. Sterling, Ky., April 25.—Friday afternoon Andy James and his son-in-law, Charles Robinson, quarreled, and only the interference of friends prevented serious trouble. Geo. Crumpton, while defending James, enraged Robinson, and the latter shot Crumpton in the leg above the knee. Crumpton drew a knife, cutting through Robinson's coat.

Some persons are just finding out that Henry Youtsey is a bad man.

It may finally appear that Youtsey wasn't the only bad man in that gang.

It oughtn't be thought incredible that Howard could have fired the shot that laid Gov. Goebel in his grave in face of the testimony that Youtsey has given, and the reputation that the accused enjoyed at his mountain home for just such work.

The Ohio State Brewers' Association has taken a radical step in an effort to stem the tide of town after town in Ohio voting itself dry. The brewers have decided to work for closed saloons in small cities and towns on Sundays. They want to save their business in the big cities. It is the persistent violation of the Sunday closing laws that has resulted in such a strong anti-liquor sentiment most everywhere, and this sentiment is growing. If the saloon keeper is wise he will discharge his Sunday "look-out," close his doors on the Sabbath and be content with six days in the week.

OTHER CAUSES.

And Not the Pulling of the Tooth, May Have Caused That Death in Fleming.

Mrs. Frances Corvill, aged twenty-one, who died at Peck's Ridge, Fleming County, from blood poisoning, resulting from having a tooth extracted some time ago.

Editor Bulletin: The above is not the only death from tooth extraction reported from Fleming County in the last few years. I will venture if the facts were reported in its true light you have one of three causes that produced the blood poison in this case—unclean forceps, a septic hyperdermic needle or a solution of cocaine that is infectious. The physician or dentist that causes death from tooth extraction in nine cases out of ten knows full well that the fault is lack of precaution on his part. Tooth extraction is nothing more than a surgical operation of minor importance for 50 cents. If the operator can take hold of the tooth with a pair of contaminated forceps and remove same without injury to the tissues surrounding the tooth with the unclean forceps you can expect good results. Do you imagine that the surgeon who had an operation to perform in the mouth would permit a dentist to take from his pocket or case a pair of forceps and extract teeth in connection with his operation without first seeing that the forceps were in the same condition as his own instruments?

While this article says death from tooth extraction, there may have been predisposing causes that would have terminated in death aside from the extraction. I make eloquent appeals to my professional brothers on all occasions to be clean with their instruments, not only forceps, but all kinds that draw blood. Our patients bring us infection innocently in most cases. In others, if I can get relief, I do not care who suffers from my indiscretion, and therefore I can say I know you and fear you not. I stand between you and innocent blood with fire and water that purifies and makes infection clean.

PROSPECTS BRIGHT

For the Building of the Electric Railway From Maysville to Columbus.

The Road Will Connect With the Net Work of Traction Lines in Northern Ohio.

[Washington C. H. (O.) Record, April 23rd.]

George B. Darnall, the engineer in charge of the preliminary survey of the Appleyard interurban line between Columbus and this city, reached here with his force of men Saturday, having completed the survey of one of the prospective routes between Mt. Sterling and here. He returned Saturday evening to his home in Grove City and was here again Tuesday looking after some local work for the company.

Mr. Darnall has been engaged for some time past in making preliminary surveys of several routes between Columbus and this city, as told in the Record two weeks ago. The intention is to make a thorough inspection of the routes, and then select the one which is the most practicable and admits of the least difficulty in speedy construction.

With the promised early construction of the street railway and terminal facilities, the Appleyard line to Columbus and the Springfield and Washington C. H. line, and the looming up of the Maysville and Swing lines, the prospects are very flattering for Washington C. H. and the electric line matters of this section of the State. The prospect of the Maysville line, which is proposed to reach this city from that point, by way of Aberdeen, Ripley, Georgetown, Sardinia, Hillsboro and Leesburg are particularly bright. This company has secured rights of way over the greater part of the route and their affairs can be speedily closed up. The promoters, of which G. Bambach, a prominent resident of Ripley, is the principal, are particularly desirous of an early connection with the Appleyard

line here and the completion of that line to this city and the terminal facilities in the nature of the street railway, will afford them such an early opportunity. The promoters of the Maysville line recognize the fact that connections offered in this city are the most desirable to be found, and in this light the speedy construction of the Appleyard lines becomes of the greatest importance. Mr. Appleyard offers the Maysville promoters the most desirable advantages. He offers them terminal facilities here, connection with his line and the privilege of running cars over his line to Columbus. This Appleyard line will be a through line to Bellaire and the system of the Appleyard syndicate extensively covers the northern part of the State. By this connection here a direct line and the only one touching the Ohio river between Portsmouth and Cincinnati, through a country in the southern part of the State which has no other railway outlet, through to Columbus and to almost any other northern point is furnished. The unequalled and patent advantages offered by this route to all concerned are fully recognized and it is doubtless that these points will soon be so connected.

SAD ACCIDENT.

Little Searles Wood Probably Fatally Wounded by His Brother Charles Last Evening.

A distressingly sad accident occurred late last evening at the home of Mr. and Mrs. N. S. Wood, of Forest avenue.

Searles, their nine-year-old son, was shot and probably fatally wounded by his brother Charles, aged twelve. The children had found their father's revolver, a .44 calibre weapon, and were playing with it, not knowing it was loaded. Charles had the weapon and was seated on a bed. Searles was standing on the porch, at a window, some five or six feet distant, when the weapon was discharged. The ball (the only one in the pistol) entered a little below and to the right of the right nipple, passing through the lung and lodging near the spine, it is thought.

Drs. Davis and Reed were summoned and rendered all the aid possible for the relief of the child. The wound is a very dangerous one, and the chances are against the little fellow's recovery. He was resting somewhat easier at 7 o'clock this morning.

SUDDEN SUMMONS.

Mr. William Mackey Dropped Dead Friday Afternoon at His Home on Jersey Ridge.

Mr. William Mackey who lived with his uncle, Mr. John Hayes, on the Jersey Ridge pike, dropped dead Friday afternoon about 4 o'clock. He had not been complaining of feeling unwell, in fact had been at work about the yard sawing some posts when he was suddenly stricken and expired in a short time. His death is attributed to heart disease.

He was single, forty-seven years old and leaves one brother, John. Their parents, Mr. and Mrs. James Mackey, died when they were children, and they had since then resided with their uncle, Mr. Hayes.

The funeral will take place at 9 a. m. Monday at St. Patrick's Church. Burial at Washington.

The Ideal Scrap Book.

Patented May 28, 1901, Oct. 1, 1901.
The above cut shows pages of the Ideal Scrap Book, filled with clippings and large pictures. The dotted lines, which look like perforations of the page, are made of strong adhesive gum, which hold the clippings firmly for years.
The advantages of this book are many. The paste pot is done away with. Leaves may be removed. Back allows for expansion. Leaves when filled are smooth and neat. Book has great capacity. Clippings may be removed. Both sides of a clipping show. Book is indexed. It is inexpensive. For sale by

NO RISK**

When buying your Spring outfit from me. The clothing I sell you, which are all made to measure and which range from \$15 up, ARE NOT YOURS IF NOT RIGHT. No matter if made in New York, Cincinnati, Aberdeen or in "my house," the construction of these garments is through me from start to finish, which in itself is sufficient guarantee that they are just so when you become their custodian. I am now showing some very handsome designs, a variety of weaves in new colors and novel color combinations, the effect of which is very striking. You stand in your own light should you fail to call to investigate.

IMPORTANT ANNOUNCEMENT OF THE MAYSVILLE GAS COMPANY.

Under 2000 cu. ft. of Gas \$1.50 per 1000.
Over 2000 cu. ft. of Gas and under 3000 cu. ft. \$1.25 per 1000.
3000 cu. ft. of Gas and over \$1 per 1000.

At a meeting of the Board of Directors of the Maysville Gas Company March 24th, 1903, it was ordered that on and after the first day of April, 1903, the above sliding scale of price of gas for all purposes, fuel and illuminating, should go into effect for all private consumption, and that all rates and discounts heretofore made are hereby abolished.

It was further ordered that after the first of April the old rule of the company "gas will be turned off if account is not paid within five days after presentation" shall be enforced, impartially and indiscriminately, regardless of whom it may concern. (This action was taken not to appear arbitrary nor with the idea that the accounts of the consumers were not perfectly good at any time during the month, or a year later for that matter, but for the good of all concerned and in order that this part of the business of the company might be taken up at a specified time during the month and disposed of, and further in order that the time and thought of the company's agents and employees, now so largely occupied with this work of collecting, might for the balance of the month be diverted toward giving consumers of gas better attention and more efficient supply and service.

It was further ordered that beginning with the first of May and for each and every month thereafter, the monthly statement of account of each consumer should be delivered to said consumer by an agent of the company on the first day of the month, or the second day, if the first comes on Sunday, and that said account shall thereafter within five days be due and payable at the office of the company on Court street, Maysville, Ky., and if not so paid, gas will be promptly shut off.

The gas company further announces that, after the first day of April, they will handle and sell at cost price to gas consumers any of the great variety of gas stoves and ranges made by and shown in the catalogue of the Detroit Stove Works, Detroit, Mich., which will be a sum equivalent to 50 per cent. discount from the list prices in said catalogue. These stoves and ranges will be sold for cash only, or according to the terms of a printed lease, whereby easy payments are extended over a period of from twelve to seventeen months. For instance, take a gas range listed in catalogue at \$26, the gas company will sell this range to consumer for \$13 cash or for \$20 cash at signing of lease and 60 cents a month for seventeen months, at the expiration of which time the range is sole property of consumer. The company has selected to handle the Detroit Jewel Gas Range on account of its acknowledged superiority and wide reputation for durability and economical consumption of gas. The gas company will also handle, at cost price to consumer, the fixtures and mantles of the Welch Company in all of their many attractive varieties.

Before closing this announcement the gas company wishes to publicly express appreciation of the eminently fair, just and courteous treatment accorded them by his honor, the Mayor, and the Board of Council, particularly the Chairman and members of the Gas Committee of that body, through whose efforts in behalf of the private consumers, the above concession in the price of gas is now announced.

With the assurance to the citizens of Maysville that it will be the earnest effort of the company and its agents to at all times give them their best possible service at the least cost, we beg to remain, very respectfully, MAYSVILLE GAS CO.

P. S.—On and after April 1st the gas company will have on exhibition at the plumbing establishment of Mr. Larry Langfells on Market street, samples of the Detroit Jewel Gas Ranges, to the inspection of which those interested are cordially invited. You can leave your order for a range with any representative of the gas company, with Mr. Langfells or your regular plumber, with whom you will have to make arrangements for the connecting and fitting up of range in case of the placing of order.
